Grades: Begin program in 11th grade

Students have an opportunity to earn their high school diploma while simultaneously completing a college certificate or industry credentials. In order to complete the coursework required for this program, students will agree to a fifth year of high school. Students apply for admission in grade 10 and, if accepted, begin taking college classes in grade 11. Students will take a combination of high school and college courses during grades 11 and 12. By the time they reach the fifth year of high school, they will be a full-time college student and, in most situations, all of their coursework will be completed on-site at the college campus or tech facility.
